EDUCATION

2015-2017

Msc Electrical Engineering @
Università degli studi di Pavia
(IT)

Thesis: Study and modelling
of a car door drive operator
for Schindler's elevators
@Schindler Elettronica SA
(CH)

2012-2015

Bsc Industrial Engineering –
Energy Engineering @
Università degli studi di Pavia
(IT)
Thesis: Study of OFIMA's
Hydroelectric pumping
system @OFIMA SA (CH)

PROFILE

Senior application engineer, utilizing my 7+ years of experience in the software industry. Developing workflows to easily automate and overcome the burden of manual operation. Writing codes that are reliable and user-friendly with the aim of scalability. Passionate about everything involving software development, DevOps and technology.

EXPERIENCE
